QNX® LICENSE ADDENDUM

FOR
TTTECH AUTO PRODUCTS

VERSION 1.1

1. INTRODUCTION AND GENERAL TERMS

This QNX License Addendum (the "Addendum") provides supplementary licensing information for the TTTech Auto Product(s) (the "Product(s)"). Customer's purchase and use of the Products are subject to the terms and conditions of the applicable QNX Development License Agreement (the "QDL") and this Addendum. The Products are licensed on a per Project basis and must be licensed for a Project where QNX SDP is also licensed and in the case of any safety version of the Products, a QNX OS for Safety license must also be obtained. The Products shall be considered Third-Party Commercial Software which shall mean for the purposes of this Addendum: third-party commercial software (other than OSS Software) which is made available by BlackBerry and/or is distributed by BlackBerry on behalf of the third-party licensor and which is licensed on terms and conditions that differ from the terms and conditions set out in the QDL, as described herein.

For the applicable QDL, please visit: http://licensing.qnx.com/info/. All capitalized terms used but not defined in this Addendum have the respective meanings ascribed to them in the QDL. In the event of a conflict between this Addendum and the QDL, the terms of this Addendum will apply.

BlackBerry will provide a License Certificate that confirms the Product licensed, the License Term, and License Parameters. Software associated with Products will be fulfilled by BlackBerry, however the cloud service elements will be provided directly by TTTech Auto. BlackBerry will supply the necessary entitlement information (via email) for Customer to interact with TTTech Auto systems in order to access and use the cloud service elements. The License Certificate will be available in myQNX License Manager and the license can be deployed in a similar manner to other QNX Software.

The Products (except for Early Access, Evaluation, Custom or Experimental versions if any) will be considered Commercially Released Software for the purposes of Section 11.2 (Software Warranty) and Section 6 (Maintenance and Support) as described in the QDL.

Customer must be an original equipment manufacturer ("**OEM**") or Tier 1 supplier to an OEM and use of the Products licensed to Customer is limited to the Automotive Market. "**Automotive Market**" shall mean the market for all: (1) vehicles, including without limitation, passenger cars, taxis, delivery vehicles, trucks used for transporting goods, motorcycles, whether operated by humans or machine-operated, e.g. robo-taxis; (2) heavy off-road machinery including those used in construction, forestry and mining. For the purposes of this definition, it shall not include vehicles designed specifically for operations in industrial manufacturing settings i.e. warehouse robotic vehicles or vehicles used in the vetronics industry, i.e. vehicle electronics in defense and aerospace.

2. MAINTENANCE AND SUPPORT

BlackBerry QNX supports the Commercially Released versions of the Products subject to its Standard Maintenance and Support Policy and the terms and conditions of the QDL.

3. QNX OSS COMPLIANCE FILES

OSS Compliance Files will not be provided via Software Center but rather will be provided in the applicable Product.

4. DISTRIBUTION

Except as expressly stated in the QDL or herein, no distribution rights are included with Customer's purchase of a Developer License to the Products. Any Runtime Subsystems that are subject to or referenced in a BlackBerry QNX distribution agreement will be considered Type III Software, as such term is used in the applicable distribution agreement.
